We specialize in **HIGH SPEED**
Water Removal & Structural Drying

The "professional's choice"
for Emergency Water Extraction

Company Overview

H2O Drying Solutions provides the complete solution for insurance companies, property managers, and the customers and tenants they serve.

The technicians at H2O Drying Solutions are highly trained professionals. They understand and execute the latest drying techniques and use state of the art equipment. In addition, they receive training on customer communication, customer expectations, and their responsibility to provide a detailed report on every water job.

We employ the most state of the art drying techniques in the industry. We specialize in high speed structural drying. H2O reduces the drying time on jobs from 4 days to 24–30 hours with little to no construction damage.

It is H2O's investment in equipment research and training that proves our commitment to being your first choice, a trusted expert and industry leader in water restoration.

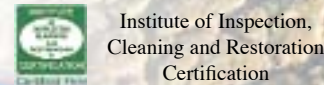

Fast Response

When you are faced with water damage from a flood or storm, it's important to take care of the problem quickly before structural damage or mold can start. H2O Drying Solutions will respond to your call within 2 hours, 24 hours a day, 7 days a week.

Response Program

- Arrive on all jobs within 2 hours
- Counsel with customer
- Document all wet areas digitally
- Remove all Oil paintings, wood furniture, and oriental rugs from wet areas
- Design a drying plan
- Attempt to contact adjuster prior to work being performed
- Perform a detailed extraction (97% of the water can be removed by a disciplined extraction)
- Utilize the most effective and cost efficient drying technique to return the structure back to S-500 standard
- Provide a comprehensive report with pictures, moisture maps, humidity readings, equipment placement, daily changes and progress of drying
- Provide a signed customer job completion form
